**Mrs. M. Hoggan
Died on Saturday****Well-Known Early Resident of Coleman Passed Away After Short Illness.**

Mrs. Margaret Hoggan, an old-time resident of this district, died on Saturday last at her home a few miles west of Coleman, near Sentinel, after an illness of only a few days, in her 69th year. She had lived for some years with a grandson, Edwin Stonehouse, at the ranch, her husband having died in Coleman in 1921.

Mrs. Hoggan, whose maiden name was Margaret Easton, was born at Kinnaird, Stirlingshire, Scotland, and came to Pennsylvania with her husband 38 years ago. They later moved to British Columbia, and again moved to Coleman, about 24 years ago. The funeral was held on Tuesday, the Rev. H. D. Bevan officiating at the service at St. Paul's United Church, which was attended by a large number of friends and acquaintances of the family.

Members of the family are Mrs. James Larrigan of Roslyn, Wash.; Mrs. Fred Deitchler of Chelchals, Wash.; Mrs. Harry Antel of Coleman, Mrs. Fraser McLeod of Red Deer (daughters); George Hoggan, Ladysmith, B.C.; Robert and William of Coleman.

CARD OF THANKS

The family of the late Mrs. Margaret Hoggan desire to express their thanks for the many expressions of sympathy received in their bereavement, and to the doctors and nurses for their kind services, and those who loaned cars, also to those who sent flowers.

Mr. and Mrs. J. S. Rogers and family, Mr. and Mrs. A. W. H. McLeod, Mr. and Mrs. Harry Antel and family, Friends of I. O. O. F. Lodge No. 26, Mr. and Mrs. A. R. McLeod, Mr. and Mrs. Wm. Hoggan and family, Mr. and Mrs. Alex. Fyfe, Mr. and Mrs. A. R. Godfrey, Mr. and Mrs. Fraser McLeod, Mr. Robert Jenkins and family, Mr. and Mrs. M. J. McGrath. The words from the family was a "Gates Ajar," with the word "Mother" worked in gold letters.

The Journal would appreciate local news items from its readers and subscribers. It is impossible to find out all the interesting happenings occurring weekly, and the assistance of readers would be appreciated. Everybody likes to get as much local news as possible, for everybody is more or less interested in what is happening in their home town.

Coleman will play their first game with Blairmore at that town tomorrow evening, and the return game of the intermediate series will be played here on Tuesday evening at 8 o'clock.

One of the greatest aids to happiness is health. And the easiest way to keep healthy is to take lots of open-air exercise. With the splendid winter weather of the present season, there is little excuse for not taking plenty of open-air exercise. The open air and the sunshine is the greatest antidote for winter colds and other ailments.

AND SUBSCRIBERS
HEARTY GOOD WISHES FOR THE NEW YEAR**

It opens another year of opportunity for all, in which every person has a chance to help in the progress and development, and social welfare of the town of Coleman

**Elks Annual Ball
Was Grand Success****Local Lodge B.P.O.E. Made Merry at Annual Ball to Usher in New Year.**

Coleman Elks and their friends ushered in the new year in fine style at their annual ball in the Grand Union hotel on Monday evening, when the dining room and rotunda were filled with merry dancers who kept it up till nearly 3 a.m. With the death of the old year and the arrival of 1929, the dancers formed in a circle and sang "Auld Lang Syne," following which lunch was served, an amusing feature of which were some very good imitation buns, which when squeezed emitted a squeak similar to a doll, and which caused a good deal of fun. Noise-makers, streamers and paper hats gave the air of a huge Christmas party, and nowhere in the district was the new year ushered in with such jollity and good cheer.

Mrs. Sal's orchestra provided the dance program, and many visitors were present from various parts of the district, including Bob Gray of Blairmore, who forsook his home town to come down and have a real jolly evening with Coleman Elks.

The local lodge is to be complimented on the success of the evening, and they certainly left nothing undone to provide a really good time for their guests.

New Year's parties and gatherings of various organizations were the rule on Monday evening, and 1929 was ushered in as if it was very welcome. The local Scots of course celebrated this grand annual holiday, and some commenced to celebrate on Saturday evening. Even the chief was seen extending the glad hand to numerous acquaintances who may have made his acquaintance under less cheerful circumstances.

Miss Reid of Guernsey, Sask., is visiting with Mr. and Mrs. H. C. McBurney.

**Coleman Wins Four
Games in Succession****Home and Home Games in Crow Intermediate Series Between Blairmore and Coleman Will See Keen Rivalry for League Supremacy in First Half**

Coleman Canadians added another victory to their credit on home ice on New Year's day, defeating Hillcrest by 3-2, this being their fourth consecutive win in the Crow intermediate series. Kubin, Fraser and Gate each scored for Coleman, a goal in each period, Andrechuk and Letcher each scoring for Hillcrest in the second and third periods.

The largest attendance recorded so far in Pass league games this series turned out, and though the play was not quite as dashing as seen in previous games, the fans were provided with some excitement by the closeness of the score, making the game very uncertain as to who would be the winners right up till the closing bell.

Bill Gate, old stand-by of Coleman, was in good form, and frequently drew the applause of the fans by his attempts to score repeatedly, but the Hillcrest goal, C. Makin, saved his team from a higher score being piled up against them.

The line-up was: Hillcrest—Goal, C. Makin; defence, Letcher, D'Ercole; forwards, Andrechuk, Atkinson, H. Letcher; subs, W. Makin, White, Falconer and Clark.

ST. ALBAN'S CHURCH, COLEMAN

The following are the officers of the J.W.A. for the year 1929—Superintendent, Mrs. A. D. Currie; asst. sup., Myfanwy Griffiths; cor. secy., Violet Wilson; "Dorcas" secy., Wilma Halliwell; treas., Isabel Atkinson; sick committee, Nora Macleod and Mabel Snoddy; treas. of pledge fund, Edith Richards; pages, Margaret Hoggan and Betty Poxton. Next meeting will be on Tuesday, Jan. 8, at 6 p.m.

Notices

Thursday, Jan. 3, Senior W.A., 7.30 p.m.; Friday, Jan. 4, choir practice, 7 p.m.; Sunday, Jan. 6, evening 7 p.m. The books will be left open until Monday, Jan. 7, to give an opportunity for arrears of envelopes to come in.

Schools re-opened this morning, and everybody will now have to arise earlier in the morning to be on time.

Mr. and Mrs. Stephen Machin of Vulcan spent the New Year holidays here, Mrs. Machin being a daughter of Mr. and Mrs. F. G. Graham.

Posters have been issued for a big sale at Nicholas sale commencing on Saturday. Secure a copy to acquaint yourself with the extraordinary values.

Now that the holidays are over, everybody can get back to their regular routine, and it is expected that the mines will begin to operate on steady time for several months. 1929 should be a good year.

Mr. and Mrs. Chas. Graham left on Saturday for Drumheller, to spend New Year's holidays with Mrs. Graham's parents, Mr. and Mrs. R. Easton, and from there will return to their home at Laquerbe.

**Masonic Lodges
Instal Officers****Joint Installation at Hillcrest of Officers of Pass Town Lodges—Fine Reception by Sentinel Lodge.**

On Thursday in accordance with time-honored custom on St. John's night, Summit Lodge of Coleman, Rocky Mountain Lodge of Blairmore and Sentinel Lodge of Hillcrest met at the latter place for a joint installation of officers. The worshipful masters installed by Rt. Wor. Bro. Creighton of Hillcrest were W. L. Rippon, Summit Lodge; S. G. Bannan, Rocky Mountain Lodge, and F. Costick, Sentinel Lodge.

There was a large attendance, Chilnook Lodge of Cowley and Spruce Lodge of Pincher Creek being represented by members. Following the installation Hillcrest lodge served a very fine luncheon, the only toast proposed being that of "The King." A short musical program was given, Fred Uley, Tom Cuthbert, Mr. Currey, Fred Costick and Frank Smith contributing. Past Master Haggerty of Sentinel Lodge was presented with a jewel by Rt. Wor. Bro. Geo. Cruickshank, P.G.M., as a token of appreciation from the members.

Coleman members spent a very enjoyable evening, and appreciated the splendid style in which Sentinel Lodge carried out the evening's program.

Walter P. Rogers of Bonnington Falls, B.C., spent the Christmas holidays with his parent here.

Children Are Entertained by Elks Lodge**Jolly Theatre Party Provides Fun for All Coleman Children New Year's Day.**

That the Elks are not selfish in their enjoyment during the festive season is demonstrated by their annual treat to Coleman children, who were treated to a free show and chocolate bars and other dainties at the Palace theatre on New Year's day. Special films were secured for their entertainment, such as Jackie Coogan in "Bertie Tots," and "Our Gang" comedies, which make a special appeal to children.

The theatre was packed from floor to roof with children of all ages, while kindly big "Brother Bill" looked after their safety and entertainment. The boys and girls appreciate this kindness by the Elks, and all agreed it was a fine show.

**Syllabus Out For
Musical Festival****Fifth Annual Festival of Crow's Nest Pass at Blairmore, April 1-2-3.**

Of interest as the recently published syllabus of the annual musical festival giving particulars of the various competitions in violin, vocal, piano and choral work. This festival has gained in importance each year, and creates great interest throughout Southern Alberta. The association has been fortunate this year in securing as adjudicators Mr. Clifford Higgin, organist of Knox United Church, Calgary, and Mr. Ernest F. Layton, past president of Alberta Musical Festival Association, of Lethbridge.

The secretary of the festival is Mr. Frank J. Smith of Hillcrest, who would be pleased to send a copy of the syllabus to all who are interested, or copies may be obtained at The Journal office.

Coleman is represented on the general committee by John Cox, Geo. Pattinson, W. J. Harris and H. T. Halliwell.

Again the schoolboy outgrows his clothes. Publishing circles report the expenditure by the Family Herald and Weekly Star of close upon a half million dollars for huge new printing presses to cope with their fast-growing subscription list. At their new low subscription rate of three years for \$2, one is prompted to ask, "How long before they outgrow this one?"

Reconstructs Continent's Oldest Music**DR. HEALEY WILLAN.**

The oldest music hitherto recorded on the American continent has been unearthed and reconstructed for production at the forthcoming Sea Music Festival in Vancouver. These are three acedances ascribed to the Indian chief Mambertou by Marc Lescarbot, the young lawyer from Paris who in the year 1609 published an entertaining account of the life of the French garrison at Port Royal in Nova Scotia. Lescarbot, like all educated men of his day, was something of a musician, and wrote down in solfa notation the melody of songs he heard this Indian chief sing, but no modern historian appears to have realized the importance of this notation. However, in reconstructing an English version of "L'Ordre de

Bon-Temps," written in French by Louvigny de Montigny, J. Murray Gifford of the C. P. R., was struck by the possibilities of this music, and suggested to Dr. Healey Willan of the Toronto Conservatory of Music, that he should arrange it for modern production. To an Indian, the melody is only half the music, and the problem was to discover the original rhythm. Fortunately after considerable study, Dr. Willan was able to find in the traditional tribal music of the Mellicite Indians, who are descendants of the Souriquois of Lescarbot's time, three traditional dance rhythms which exactly fit the melodic line of the notes recorded by the French historian of three hundred years ago. In this manner, three

delightful song-dances have been reconstructed and have been incorporated in the ballad opera, "The Order of Good Cheer," which will be produced on January 25th at Vancouver. Hitherto the oldest song identified with Canada has been the hymn "Jeus Aha-tonk," which Father Brebeuf translated into the Huron dialect about the year 1636 for the Indian converts at Quebec. The song-dances of Chief Mambertou are, however, native to Canada and were noted by Lescarbot in the year 1606. The probability is that they were old even at that time, as folk-songs are handed down by Indian musicians from generation to generation.

BRANCH LINE PROGRAM OF C.N. WILL BE HEAVY

Montreal.—The Canadian National railways, it was officially announced, will ask parliament, when it reassembles in January or February, for authority to construct additional branch line mileage, the program presented to be carried to completion within the succeeding three years.

Sir Henry Thornton, chairman and president, and S. J. Hungerford, vice-president in charge of operation and construction, have made a close study of the branch line needs of the National system and their recommendations are now being completed.

While no details are forthcoming; at present it is definitely known that the extension from Aberdeen to Melville, Sask., will be requested and it is understood that the new branch line program may be somewhat larger than that presented to parliament in April, 1927, when 506 miles of new lines were included. Due to the fact that parliament's sanction was forthcoming in the early spring of 1927, excellent progress was made in that year and in 1928 on the work authorized. As a consequence working forces and construction equipment will be available early in the summer of 1929 for the new construction work admittedly necessary to keep pace with agricultural and other development.

Britain Wants Penny Postage

Would Follow Example Set By Canada To Restore Cheap Postal Rate

London, Eng.—The Daily Chronicle expresses the hope that Right Hon. Winston Churchill, chancellor of the exchequer, will take note of the decision of the Canadian Government to restore penny postage, and asks why Canada should have taken action before Great Britain in giving practical effect to the principle laid down by Right Hon. C. D. M. Avery, secretary for the dominions, namely that the conduct of business depends upon cheap and effective intercourse.

The newspaper declares: "When we demand penny postage we are not asking that it should be provided at a loss for the post office. The surplus in the neighborhood of £7,000,000 and reduction to a penny would only cost £5,500,000.

When Churchill says that he cannot afford it, he is using words which have no meaning, for by annexing the post office surplus he is simply levying a tax on letter postage. Such a levy on trade intercourse is a form of taxation which this country can least of all afford."

New York Making Raid On Criminals

Police Commissioner Thinks Worst Type Will Leave City

New York.—An exodus of criminals is under way in New York according to Police Commissioner Grover Whalen, who believes there is a "lot of law in the end of a night stick."

After two days of intensive raiding, Whalen said, his police have captured eight major criminals. He refused to reveal their names.

In addition, the commissioner disclosed that several gunmen were caught. From now on a special effort will be made to rid the city of that type of criminal, Whalen said.

Left Large Estate

New York.—An appraisal of the estate of the late Judge E. H. Gary, head of the United States Steel Corporation, at his death, August 15, 1927, placed its net value at \$12,938,072.25.

Summary Execution Banned

Mexico City.—Abolition of summary executions has been ordered by President Emilio Portes Gil. He announced that even persons apprehended in open rebellion against the government would be turned over to the authorities for trial.

Discovery May Be Valuable

Cumberland, R.I.—The Cistercian monks of Cumberland have discovered on their property a vein of granite, which they believe, may prove of enormous value. The discovery was made while the monks were gathering stones for a new chapel.

Pays For Airplane Ride

Newark.—Miss Amelia Earhart, trans-Atlantic aviator, paid \$10 for a 30 minute airplane ride in a commercial plane with her mother.

W. N. U. 1796

United Farmers Of Canada

Saskatchewan Section To Meet In Regina In February

Saskatoon, Sask.—The annual convention of the United Farmers of Canada, Saskatchewan section, will be held in Regina, February 12, 13, 14 and 15.

The provisional board of the Co-operative Wholesale Society will meet February 8, and the convention of the new Co-operative Wholesale Society on February 11, also in Regina. The board of directors of the United Farmers will meet in Regina, February 8. Federal delegates will be invited from the wheat pool, live stock pool, egg and poultry pool, U.F.M., U.F.A., United Farmers of British Columbia, U.F.O., and the teachers' alliance.

Receive Salary Increases

Officers and Clerks In Federal Income Tax Office Are To Benefit

Ottawa.—Something over a thousand officers and clerks of the federal income tax division throughout Canada received a substantial gift on the eve of Christmas in the form of increase in salary. What is more, the increase is retroactive to April 1st—the beginning of the fiscal year.

The raises vary from four dollars to nearly eight hundred a year, according to the position held and the responsibility attaching it.

To income tax division is not under the civil service act and those who are employed in it have not shared in the increases in recent years extended to other branches of the service.

Three Killed When Train Strikes Auto

Two Small Children Hurlled From Car Have Miraculous Escape

Chaplin, Sask.—Knutte Hammermeier, and Mrs. "Scotty" McCowan, all residing in the valley north of Chaplin, were instantly killed at the C.P.R. crossing a mile west of Chaplin when a freight train crashed into the Chevrolet touring car driven by Hammermeier.

Two small children of Mr. and Mrs. McCowan, aged three and five years, were hurled out of the car and escaped without a scratch. They were found afterwards huddled together hiding in the bush near the right of way.

Union Of Escaped Prisoners

French Soldiers Who Escaped From German Prison Camps, Have Organized

Paris.—Thousands of soldiers of the world war who escaped from German prison camps have handed together to form a union of escaped prisoners. They will hold annual reunions to talk over their war-time experiences, but their principal aim is to take care of the widows and orphans of other soldiers whom they know to have been killed in attempting escape.

Once each year they will hold a banquet at which they will toast their good luck.

Sweden's First Railway Tunnel

Stockholm.—An underground railway tunnel, the first of its kind to be built in Sweden, is now under construction in Stockholm. The subway will be 5,248 feet long and will cost \$1,614,000 when completed. An entrance to the capital, the "Soederstrom," or down town section, will be tunneled from one end to another.

Record For Motor Car Fatalities

Chicago.—There were 13 deaths from automobile accidents in Chicago over Christmas—one of the largest death lists from such a cause ever recorded during a holiday period here. The fatalities brought the number of motor car deaths for the year to 1,061, which is a record.

Rail Road Sitings

Ottawa.—The board of railway commissioners will open hearings in Vancouver on January 8, which will probably extend over several days. Following sittings in Vancouver, the board will sit in Victoria, B.C., opening January 15.

Mild Weather In East

Sault Ste. Marie, Ont.—Several robins were seen in Sault Ste. Marie on Christmas, and a citizen reported finding a live caterpillar in the street. The weather continues abnormally mild.

Friend Of King Dies

London, Eng.—Lord Lambourne, one of King George's old friends, died at Bishop's Hall near Romford, Essex, aged 81. He was a keen rival of the King at horticultural shows.

Queen Appreciated Message From Canada

Governor-General Receives Thanks For Greetings To King George

Ottawa.—A message from Queen Mary, at Buckingham Palace, where King George is slowly improving from his serious illness, was forwarded by the Governor-General, to Premier Mackenzie King, at Laurier House, Ottawa.

"On this Christmas morning," said the Queen, "my children and I thank you from our hearts."

The Queen's message was in reply to one sent by Premier King, conveying to King George Christmas greetings on behalf of the government and people of Canada who "join our prayers to those of all parts of the Empire for the complete restoration of your Majesty to health and strength."

The message from her Majesty said: "Please be assured that the message of greetings which you have so kindly sent on behalf of the King's government in Canada and the people of the Dominion will be highly appreciated and valued by the King whom his progress to recovery is sufficiently advanced for him to receive it personally."

WILL CONSIDER AMENDMENTS TO THE GRAIN ACT

Ottawa.—Amendment of the Canada Grain Act as a means of improving the existing system of grading is under consideration by the federal government, it was learned here.

Arising out of the investigation at present being conducted in the western provinces by the commission on grain grading, it is understood steps will be taken at the forthcoming session of parliament to overcome any dissatisfaction among grain growers by amending the act.

While the details of the proposed changes have not yet been disclosed, it is believed that the government will recommend the re-wording of clauses in the act relating to grading, in an effort to clarify and make more uniform their interpretation.

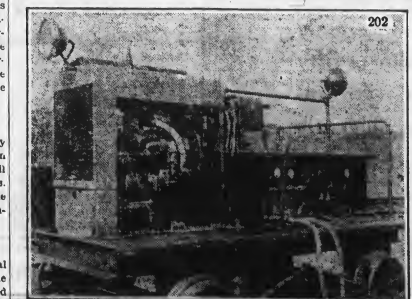

The regulations would be so framed that farmers would be in a position to determine on their own accord the grade they might expect for their wheat.

Reduction of the number of varieties of wheat which would qualify for the contract grades is another suggestion for improvement of the grading system. It is pointed out by authorities that the multiplicity of strains grown in Canada at the present time lends itself to the aggravation of the problem.

Several other proposed changes are under consideration, among them the one relating to mixing. It is understood that the federal department of agriculture is in favor of prohibiting mixing red and white wheat in the future. This practice, it is pointed out, has provoked considerable dissatisfaction among importers in Great Britain.

Income Tax For Bermuda

Hamilton, Bermuda.—Decrease in the export of trade of Bermuda, which includes onions, potatoes and celery, chiefly shipped to the New York market, has caused much concern, and the Colonial Parliament now in session is planning adoption to the income tax to meet expenses for running the government during the next fiscal year.

A Jolt Eliminator

This machine recently placed in operation by the Canadian Pacific Railway, is one of the many things which contribute to the smooth ride on rails. By welding a deposit of nickel steel to the worn rail surface at the joints with this apparatus and grinding a smooth surface the bump at the joint is practically eliminated. The machine which propels itself by electricity consists of a gasoline motor which runs two generators supplying power to the electric metallic-arc welding apparatus and a grinder.

Sir Hugh Riggby, honorary surgeon to his majesty, who has been in attendance at the bedside of the British monarch.

Prince Asks Relief For Workless Miners

Nearly Two Million Persons In Need Of Immediate Help

London, England.—The Prince of Wales' appeal broadcast on behalf of the distressed miners of Britain has awakened the country to the plight of nearly two million souls, who now constitute an economic burden on the country.

The Prince made his appeal on behalf of the Lord Mayor's fund for the relief of the distressed mining area. He pointed out that 250,000 miners were workless, which meant at least 750,000 dependents, other estimates place the figure much higher, and it is generally accepted that there are now nearly a million persons in the mining and allied industries idle. In addition, there are approximately another million persons receiving relief from the poor law.

Many remedies have been suggested, ranging from a reform of the banking system so as to make credit for productive industry available at nominal interest to a great scheme for public works.

Australia's Capital Costly

Country Spent Millions Establishing Federal House At Canberra

Sydney.—Canberra, the capital of Australia, has been built on a huge scale that it will be many years before sufficient revenue to meet the interest bill can be expected.

The total capital revenue expenditure to June 30 last, on the whole of the activities in the Federal Capital Territory, including revenue which had been received and expended was \$52,730,000. Parliament House, also has cost approximately \$3,750,000.

Women and Children Removed

Calcutta, India.—A British airplane has arrived at Peshawar from Kabul, with 11 French and 10 German women and four children, belonging to the French and German legations. The women were cheerful, and reported that all was quiet in Kabul. Their husbands remained at the capital.

Special Plates For Doctors

Winnipeg.—In connection with the issuing of automobile license plates, at the Legislative building, a special arrangement for the benefit of physicians has been made. Plates from 4,000 to 5,000 are being reserved for them, no matter when the applications are received.

Disastrous Fire In Hull Hospital

Non-Fatalities Burned But Patients Were Removed Safely

Hull, Que.—Thirty-seven patients, many of them mothers with babies, some a few hours old, were carried from Sacred Heart Hospital here early Christmas morning when a fire in the laundry chute spread over the entire central portion of the building. One man died during the aftermath as a result of burns she sustained when she put out the blaze with a chemical extinguisher. She is Sister Cella, formerly Miss M. Chevrier of Cartierville, Que. She was 22 years of age.

The patients were taken to residences near the hospital and later most of them were transferred to the Water street hospital, Ottawa.

So far as could be ascertained none of these were seriously affected by their experiences.

Fire Captain Z. Leblanc, of the Hull brigade, is reported in a critical condition from smoke poisoning. Property damaged was estimated at \$78,000.

Self-Government For India

Want Dominion Status Rather Than Complete Independence

Calcutta, India.—Self-governing dominion status for India rather than the alternative of complete independence, was the policy urged upon the All-Indian and Muslim League at its opening session by Maharajah Mahumadabad, the president.

He urged the British connection gave India undoubted security and was a valuable asset to Indian nationalism, "which must face laborious decades before reaching sturdy manhood," he added.

BYRD ARRIVES AT POLAR BASE FOR ADVENTURE

New York.—Commander Richard E. Byrd, head of an expedition to the bottom of the world, is at the threshold of one of the greatest adventures of this adventurous century.

Before him lies the last geographical challenge to science—frigid, formidable antarctic, a continent of 5,000,000 square miles which is so little known, that even a large part of its glacier-fringed coast line must be mapped by guess.

Byrd commands a million-dollar expedition, equipped as few, if any, previous polar parties have been fitted out, and is prepared to spend two years, if necessary, in wrestling from the vast land of silence secrets that science has long wanted to know.

The party finds itself at The Bay of Whales—one of the gateways to Antarctica—virtually at mid-summer, when conditions are most favorable for the flying which Byrd plans to do. Whether he will attempt an immediate aerial trip to the South Pole is regarded as doubtful; it is believed, rather, that he will postpone this spectacular part of his program until the expedition has its second wind on the storm-swept tongue of ice that extends for an indefinite distance in the continental indentation known as Ross Sea.

On the South American side of Antarctica is Sir George Hubert Wilkins, himself an aviator of note, who is also known to be planning a polar flight. The two airmen have discovered any intention of racing to the pole, previously visited by Amundsen and Scott, after sledge journeys over land, but it is known that each would like to be the first man to reach it by air.

Wilkins has already made at least one long Antarctic flight from his base at Deception Island near the Weddell Sea, and hence finds himself with a good bit of South Polar flying experience.

When supplies have been swung ashore from the expedition's boats, no small problem itself in view of the height of the ice wall—the adventurers will erect the portable houses that are to be their homes during many months. When the equipment is complete it will be a tiny town, with dwellings, a recreation room, library, kitchen, workshop, store houses for tons of food and the gasoline, and shelters for the four aeroplanes.

Taking advantage of the slight moderation in temperature and storm which brief Antarctic summer will afford the expedition expects to make a start at laying supply bases along the 800-mile route which Byrd's big tri-motored aeroplane is to take some day to the pole.

B. C. WILL URGE LOWER DOMESTIC GRAIN RATES

Victoria.—British Columbia will soon launch a campaign to secure for its farmers drastic reduction in domestic grain rates, for many years a leading objective of the whole agricultural industry, Premier S. F. Tolmie has announced.

Meanwhile when the Railway Commission sits in Vancouver early in January, the province will ask for heavy reductions in express rates to benefit business generally, but particularly to assist the fruit industry of the interior, the premier said.

"We are not ready yet to launch our domestic grain rate application," the premier explained, "but meanwhile we are going ahead with the express rate hearing. The domestic rate situation is most unsatisfactory to this province and the Government will not leave a stone unturned in its effort to rectify this condition."

In the case of grain when proper preparations can be made, the work will start. There is no use going ahead unprepared at too short notice so that at the Vancouver sitting of the Railway Commission we shall pursue only our application for lower rates."

Isaac Pittblado, K.C., of Winnipeg, will represent British Columbia, Saskatchewan and Manitoba before the commission in Vancouver. This agreement by which the western provinces are represented jointly was reached after long negotiations and at a preliminary hearing on express rates in Ottawa. It will be continued in the coast hearings of the commission.

Radio Conference To Meet

Allocation Of Short-Wave Channels Will Be Discussed

Ottawa.—Resumption of the short-wave radio conference in Ottawa on January 9 next, was announced by the department of mail and telegraphs. It will be attended by representatives of the United States, Mexico, Cuba and Newfoundland.

This conference met in Washington in August last to discuss the allocation of short-wave channels, but no conclusion was reached then. It was stated that the main purpose of the forthcoming conference will be to endeavor to reach an agreement in regard to division of the remaining channels which are available.

Prize Winner Named

New York Man Wins \$25,000 For Best "Dry" Law Plan

New York.—Major Chester P. Mills, former federal prohibition administrator for the New York District, has won \$25,000 because his plan was adjudged the best submitted for enforcement of the prohibition laws.

The money was offered by W. C. Durant, automobile manufacturer. The \$25,000 prize for the best enforcement plan submitted by a high school student was won by Malcolm D. Almack, of Palo Alto, California.

Loss From Penny Postage

Ottawa, Ont.—The restoration of two-cent postage from Canada to all countries of the British Empire instead of the present three cents will mean a loss of revenue of about \$200,000, post office officials here figure. They state that about 20,000,000 letters go annually from Canada to other parts of the Empire, 90 per cent of which go to the British Isles. However it is expected that increased volume will make up a considerable portion of the loss.

Influenza In Montreal

Montreal.—Influenza has taken a toll of 143 lives in Montreal since December 17, and during the same period 635 cases were reported, according to information supplied by Dr. S. Boucher, director of the health department.

Would Raise Salaries Of Cardinals

Rome, Italy.—Pope Pius is understood to approve raising the salaries of cardinals to \$3,000 a year, believing that the present \$1,100 is inadequate to cover the expenses of their offices.

Stanley Baldwin Shakes Hands

London, England.—Prime Minister Stanley Baldwin shook hands with more than 2,000 Conservative and Unionist workers at the rate of almost a minute at a recent London reception.

The Shortest Thing in the World

No, not a goat's eyelash nor a mosquito's whisker ---- **PUBLIC MEMORY.**

You may have been in business for fifty years and the people know about it. But they forget---new customers are being born every minute and they grow up and have to be told.

A NOTE TO MERCHANTS

Unless you keep telling them by Advertising what you have to offer them, the fellow who has only been in business fifty weeks, and who advertises intelligently will prove to you the truth of it.

You Must Tell Them to Sell Them

Notes and Comments

We commence a new year, which means also another year of opportunity for self-improvement. The young man not yet twenty looks at a year ahead as quite a long period, but when he gets to forty or over he realizes that it is but a short span, for as he increases in age, usually his responsibilities increase and he realizes that a year is a very short time to carry out all he would like to. A man who finds a year passing slowly is either not very energetic or is one of the idle rich. No matter how old one may grow in years, he can keep young in his mental outlook, and in order to keep up with the times it is necessary that he ever be looking forward. Time rolls on its relentless way, new innovations and improved methods for efficiency are employed, so that he who would progress must keep in step or be superseded in the competitive system which governs business. There is no middle course for the ambitious man. Make the most of the year and may it be abounding in the happiness which is born of having spent each day usefully and with the knowledge of having contributed something to the improvement of the town you live in, your business associates, and the immediate circle of your own family.

MORE LIGHT

Though the lights on Main Street do not shine as brightly as was hoped for, yet they are a distinct improvement. Some have remarked that they did not know there were extra lights till it was pointed out to them, but possibly the reason is that they do not glare forth as most street lights do. It is not to be presumed that the town fathers were somewhat hesitant of giving the public too great a surprise, but rather it appears that the arrangement of the lights gives what might be termed a subdued light—very subdued.

THE MUSICAL FESTIVAL

In three months the fifth annual Musical Festival of the Crow's Nest Pass will open at Blairmore. This is an event of considerable significance in this part of Alberta. When one considers that our population is largely industrial, it is indeed surprising the way in which the study of music is practised. The syllabus just published is quite pretentious, and denotes ambition on the part of the promoters, while the record of the few years the festival has been held shows a steady improvement in those who take part in the competitions. The fostering of such events as these bespeaks progress of a high order, and demonstrates that people rise above the material things of life to give some time to those things which enrich the soul and elevate the mind.

MUNICIPAL ELECTIONS

Very soon ratepayers will be called on to make nominations for town councillors and school trustees. If there are any men who have ideas for the improvement or welfare of the town now is the time to bring them forward and give the ratepayers an opportunity to discuss them. Too frequently nominations are left to a haphazard choice on nomination day. The carrying on of the town's business should have sufficient interest to every ratepayer to demand a portion of his time and thought. Lack of interest means indifferent administration of municipal or school affairs. The time for discussion is now, so that proposals of interest to the townspeople may be given definite consideration at the annual meeting.

REMARKABLE WEATHER

From all over the western provinces come reports of the most pleasant winter experienced for years. One ponders over the reason, but the only men who could enlighten us are possibly the meteorological experts. A short time ago a leading magazine stated that the Arctic seas were much warmer this past year than for many years; then again the enquiring mind will ask—what made the Arctic seas warmer? What concerns us most is the fact that the weather is fine and we hope it continues that way, no matter what the reason may be.

CHAPTER X.—Continued.

The words of "A Dream," sung in an impassioned, low voice, came with surprising distinctness.

"I dreamed thou wert living, my darling, my darling.
I dreamed that I pressed thee once more to my breast,
Thy soft perfumed tresses and gentle caresses
Thrilled me and stilled me and lulled me to rest."

Donald saw that Wainwright was deeply moved. His throat was working convulsively and he seemed to have difficulty in lighting his pipe. His shaking hands were cupped over his pipe-bowl in an attempt to hide his emotion. His face was pale and tears brimmed his clear grey eyes.

"Come on, John, let's up a jig!" cried Andy as he capered to his feet. To the lilt of the "Irish Washerwoman" the odd pair snatched the floor with their feet, whirled in giddy circles, and whooped like wild men. They linked arms and spun like a top until John's momentum carried him on Andy's long coat and brought them to the floor in a heap.

The comedy helped Wainwright to regain his composure, and sent Connie into screams of happy laughter.

"I've had a most wonderful evening, Andy," said Connie gratefully as they were leaving. "The most wonderful in my life," she added softly.

"By the way, Mr. Pettray," spoke Mr. Wainwright from the doorway, "how are you progressing with your studies?"

"Not 'art bad," answered Andy. "I've learned about the sepals, calyx, corolla, pistil, filament anther pollen, style and stigma." As he rattled off these words he glanced at Gillis and Douglas. He had been longing for this chance to air his newly-acquired knowledge.

"Fine," complimented Wainwright smilingly. "You are having no difficulty, then?"

Andy wrinkled his brows. "I've found it a bit difficult," he began importantly; "just a bit to know that the flowers are divided into two parts; they are corolla, calyx, pistil, anther, filament, style and stigma." As he rattled off these words he glanced at Gillis and Douglas. He had been longing for this chance to air his newly-acquired knowledge.

manifestation of sorrow by the God of Nature. With her breast heaving tumultuously, she leaned against the mammoth tree and pressed her cheek to its rough bark. "I'm sorry! I'm sorry!" she whispered brokenly.

As if in answer to her words of compassion, the veldt suddenly lifted from the moon and the wind ceased. Donald shook himself. "Rather, weird," he said, with a quick, nervous laugh. He turned to find that he was alone.

Events moved swiftly that week. King's report was favorable to Donald's plan, and word came that electrical equipment for the Summit Mill had been ordered.

At Donald's invitation Connie came to the station to witness the arrival of the first train. As the awesome black monster, with whistle screaming and bell clanging, roared through the rock cut at the south end of the lake and bore down upon them, Connie gasped in wonder. As the train came to a hissing stop she shrank against the walls of the building, a startled look in her eyes. She flushed at the men's hearty laughter.

The train was loaded with working-men, who with their bundles of blankets overflowed the small platform. A kitchen-car and a sleeping-car were shunted to the side-track which would be their home until the erection of the big dining-hall.

Donald was given charge of constructing the dam, Gillis started the lumbering operations, while Douglas moved to the Cheakamus Mill. Andy was to be boss of the kitchen staff.

With the new task set him there descended on Donald a deep sense of responsibility. Unlike the others he worked no regular hours. A feeling of gratitude toward Robert Rennie for the confidence displayed in him kept him at top speed; his energy and resources were unflagging.

From the time his alarm clock—that harsh, brutal little destroyer of sleep—shrilled its call at daylight until darkness filled the valley, he stuck to his task.

One week earlier than the time allotted he reported the dam as finished. With the new task set him there descended on Donald a deep sense of responsibility. Unlike the others he worked no regular hours. A feeling of gratitude toward Robert Rennie for the confidence displayed in him kept him at top speed; his energy and resources were unflagging.

From the time his alarm clock—that harsh, brutal little destroyer of sleep—shrilled its call at daylight until darkness filled the valley, he stuck to his task.

Unlike the others he worked no regular hours. A feeling of gratitude toward Robert Rennie for the confidence displayed in him kept him at top speed; his energy and resources were unflagging.

(To Be Continued.)

He Knew Henrietta

"How did you ever sum up the nerve to beat up that bandit and save your pay?" asked the friend of Harry Pack.

"Well," sighed Henry, "I knew what I'd get if I went home without it, so I decided I'd rather take my chances with him than with Henrietta."

The eater's sight brightened, the glow gradually spread through the heavens, then the moon came slowly over the towering snow-peaks, flooding the valley with light. The fallen tree took on a ghost-like appearance in the moon's radiance.

Then an uncanny thing happened. Suddenly from a dark sky, without a moment's warning, a dark and ominous cloud obscured the moon's light. Connie came quickly to her feet and gazed with startled eyes at this strange phenomenon. The air took on a sudden chill. A quick, strong wind swept up the hill. From the towering trees there came a moaning like a wailing requiem for the dead—so much like the human voice that Donald shivered.

To Donald the darkening moon and the sighing trees were a coincidence, but to this child of nature, who had been reared in loneliness where rivers roared and mountains boomed, and who understood so intimately the wild things of the forest, it was a

manifestation of sorrow by the God of Nature. With her breast heaving tumultuously, she leaned against the mammoth tree and pressed her cheek to its rough bark. "I'm sorry! I'm sorry!" she whispered brokenly.

As if in answer to her words of compassion, the veldt suddenly lifted from the moon and the wind ceased. Donald shook himself. "Rather, weird," he said, with a quick, nervous laugh. He turned to find that he was alone.

From the time his alarm clock—that harsh, brutal little destroyer of sleep—shrilled its call at daylight until darkness filled the valley, he stuck to his task.

Need Of Emotional Training

Proper Training Of The Child May Mean Difference Between Mediocrity and Success

"From time immemorial the children of the world have been fully trained intellectually and morally, yet parents of the world have overlooked the child's greatest need, the need of emotional training from birth."

This declaration was made by Doctor Smiley A. Blanton, Professor of Child Study, at Cornell and Vassar Universities, in a recent address. In such training mental hygiene plays a great part but according to Dr. Blanton, this does not mean mental defectiveness or its treatment, but the expansion of sound minds through emotional training. He declared that although trained to use his intellect the child may be as emotional as to have grave personality defects. The average child might be morbidly timid, fearful or anxious; possibly moody, with no ability to make friends; possibly uncooperative or selfish or have an uncontrollable temper which may ruin, partially at least, its later adult life.

"Such emotional training may mean the difference between mediocrity and brilliance or success and failure. Yet it is only recently that steps have been taken to remedy this grave lack of training," declared Dr. Blanton.

The speaker declared that from the time a child is 18 months old until it is five years old its training is the background upon which its future will grow, be it good or bad.

Discovers New Type Of Receiving Set

Radio Experts Puzzled By Experience Of Santa Barbara Housewife

There may be sermons in stones, in the running brooks, but it was left for a Santa Barbara woman to reveal that there is a Schubert melody in a pan of boiling vegetables.

As the hoarse voice of a radio announcer burst through the kitchen steam of a quiet home there, and the strains of Ave Maria filtered from a pan of beans simmering on the electric range, the housewife might have been accused of having exhibited a touch of nervousness, because there was not a radio set anywhere in the house.

But she didn't. She approached the range in a scientific spirit and stirred up the beans vigorously. In answer to a whole chorus burst into a humming, followed by a crooning plantation melody.

Radio experts admitted they were baffled by the phenomenon, but pointed out that radio music has been heard in hot air shafts connected with electric furnaces. The bottom of the pan might have acted as a diaphragm and reproduced a radio program picked up inductively by the electric power line, they add.

Old Enough To Know

"Do your best and never worry. I have got along through 108 years being that way, and as for my advanced age I'm not worrying yet." This is the advice for well-being offered by William Samuel Holbein, of Jordan River, Shelburne County, Nova Scotia, who on December 26 celebrated his 108th birthday. He has spent his life in building ships and keeping a general store.

Answer Was Correct

Even the grave and dignified British Civil Service Commissioners could not resist being amused at an answer given at a recent examination.

The question was: "Give for any one year the number of bales of cotton exported from America."

The applicant wrote: "1481. None."

Many arrests for betting have been made in Ireland recently.

"Did, I have just obtained my high-school certificate."

"Good, now all you need is a husband who can cook, clean a house and mind a baby."—Pat, Constantinople.

Boat Launching Device

Six Lifeboats Launched in One Minute By New Contrivance

A device which launched six lifeboats per minute and the liner's motor ships within two minutes was tested out in New York, on the Canadian Pacific liner, "Duchess of Bedford." United States inspectors witnessed the test and found it satisfactory. The device known as the MacLachlan patent boat launching device, will be installed on the "Duchess of Bedford," six of whose boats were lowered seventy feet into the water within one minute, while it took only two minutes to lower and start under power the two motor ships which operate with the lifeboats. The latter were lowered with radio masts elevated and radio equipment in commission.

Recipes For This Week

(By Betty Barclay)

POTATO STUFFING FOR ROAST GOOSE

2 cups hot mashed potatoes.
1 teaspoon grated onion.
½ cup chopped walnut meats.
1 teaspoon grated onion.
Paprika.
1 teaspoon salt.
½ cup evaporated milk.
1 tablespoon butter.
Yolks 2 eggs.
1 teaspoon of poultry seasoning.
Mix the ingredients in the order given and handle as any stuffing.

SCALLOPED POTATOES AU GRATIN

Into a well-buttered baking dish put a layer of thinly sliced potatoes, salt, pepper and a thin scattering of finely cut cheese and one-half the thin white sauce (1 tablespoon flour, 1 tablespoon butter, to 1 cup milk). Repeat and cover with buttered crumbs. Bake in moderate oven about an hour, until the white sauce bubbles through and the potatoes are well done and browned on top. If cheese is omitted, add small pieces of butter to each layer of potatoes. In order to save time of making cream sauce, a small amount of dry flour can be sprinkled over layers of potato, and milk added to cover the potatoes.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Visible Opera For Radio

Visible as well as audible opera is a possibility of the not very distant future for your radio set. The science of television has taken enormous strides during the past year. The broadcast of a complete grand opera by sound and by television is a goal toward which some of the best minds in the business are working today.

Compton Mackenzie, the Scottish novelist, is learning Gaelic.

National Research Textile Laboratory

Research Work To Be Conducted On Behalf Of The Wool Growing Industry

Details of a comprehensive, co-ordinated programme of research work on behalf of the wool growing and wool manufacturing industries of Canada, were announced in Toronto, following a meeting of the wool committee of the National Research Council, Dr. H. M. Tory, of Ottawa, president of the council, reported on the action taken in establishing a national textile research laboratory at Ottawa, while David C. Dick made public the plans of the industry in connection with the Ottawa Research Foundation. Broad fundamental research and applied industrial research co-ordinated by interlocking committees of scientists, educationists, wool growers and manufacturers in co-operation, are included in the programme of the National Research Council, the Ontario Research Foundation, The Canadian Woolens and Knit Goods Manufacturers' Association, and the Canadian Co-operative Wool Growers' Association.

NO MEDICINE LIKE

BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be in New York, on the Canadian Pacific liner, "Duchess of Bedford." United States inspectors witnessed the test and found it satisfactory. The device known as the MacLachlan patent boat launching device, will be installed on the "Duchess of Bedford," six of whose boats were lowered seventy feet into the water within one minute, while it took only two minutes to lower and start under power the two motor ships which operate with the lifeboats. The latter were lowered with radio masts elevated and radio equipment in commission.

Concerning the Tablets, Mrs. John Armour, R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make feeding easy. They are sold by medicine dealers or direct by mail at 25 cents a box from "Dr. Williams' Medicine Co., Brockville, Ont."

Russia Wants Automobile Plant

The Soviet Government is negotiating with Henry Ford for construction of an automobile factory in Russia, it announced officially. The factory would have a capacity of 100,000 cars per year. It was said. The officials said another company had made a similar proposal to the government.

Minard's Lament is good for corks.

Warden: "You are to leave here today."

Prisoner (who has been very comfortable): "What 'ave I done wrong?"

some desirable goods at reduced prices

Local News

Miss Adela Whiteside, who is spending Christmas holidays with her parents, has been ill, which will delay her return to St. Margaret's school, Victoria.

The only really National Farm Journal is the Family Herald and Weekly Star, Montreal. It has as many readers in Nova Scotia as in Saskatchewan, and is in its new form the talk of the Dominion.

"Wings" is coming to the Palace. Watch for date.

Miss Gladys Lees was home from Lethbridge to spend Christmas with her parents.

George Brown of the Canadian Pacific express office, has been laid up this week with a severe cold.

Chas. Nicholas was a visitor to Calgary this week on a buying trip for his store.

See "The Big Parade" next Monday and Tuesday at the Palace. One of the greatest pictures ever shown.

J. H. T. McLean of Warner Alta., spent the new year holidays with Mr. and Mrs. D. McLean, Sixth street.

New Year greetings to The Journal are acknowledged from Mrs. Chas. Gorreman, of Spokane, Wash., who has been a subscriber for a number of years.

Mr. and Mrs. H. N. Hummel arrived from the coast on Monday evening, to take up residence here. Mr. Hummel was recently appointed secretary of the International Coal & Coke Co., Ltd.

During Christmas week the finals of the competitions held at the local branch of the Canadian Legion were run off. The competitions were crilbage, nine card Don and Dominos. The following were winners of turkeys: C. Makin, H. Stevenson, G. Roth, J. Barclay. Chickens were won by W. T. Graham, S. Raymond and J. McCartney.

Joe Spiveak of Corbin, B. C. spent the holidays in town, and was pleasantly surprised to receive a very fine tenor banjo as a Christmas present from Mr. Humphries, manager of the Standard Oil Co., Chicago, for whom he caddied at Banff several years ago. Joe at the time was a boy living at Banff, and he felt very appreciative for not only the gift, but that the gentleman had not forgotten him.

We Wish a Happy Christmas

TO
The chap that coughs directly he comes to the Wicket: We have sent him a box of Smith Bros Cough Drops.

The fellow that always knocks on the counter: We've sent him a hammer.

The man who blows cigarette smoke in your face whilst getting his mail: We've sent him a gas-mask.

The garlic-eater: We've sent him a box of chocolates stuffed with arsenic.—Canadian Postmaster.
